

Salvage Crew Lead Position

Earthwise Salvage is the premier salvage company in the Pacific Northwest. For over 30 years, our goal has been to preserve our regions architectural past by salvaging reusable building materials and architectural features that would otherwise be headed for the landfill.

We are a small, independent business and we like to work hard and have fun at the same time. Our crew is dedicated to our mission and passionate about architectural salvage.

We are currently seeking to hire a FULL-TIME (40 hours, Monday through Friday) employee to work primarily in the field performing salvage work, with the possibility of occasionally working at our Seattle retail warehouse in SODO. Our salvage crew consists of this position and one other worker. A typical day would include meeting at the warehouse at 7am and unloading materials from the previous day's salvage. Then driving our 16' box truck to the salvage location, removing the salvageable items from the building, and getting the materials safely secured in the box truck. These jobs can range from removing all of the cabinets and appliances from million dollar McMansions in Issaquah to pulling up floor boards, doors and windows from a dilapidated old craftsman in Greenwood. You'll never have the same day twice.

Applicants MUST:

- have experience with basic hand and power tools
- have clean driving record and be comfortable driving box trucks
- have creative problem solving skills for removing tricky materials from job sites
- be able to conduct themselves appropriately on large commercial job/demolition sites
- able to lift and carry 75 lbs. (+/-)
- be comfortable dealing with our diverse customer and client base.
- take initiative
- work well in a team
- follow and give direction respectfully
- work efficiently and safely

Preferred experience: Construction/handyman experience or basic knowledge of working on older homes

There are few jobs that can prepare you for the wide range of tasks that this job will entail. We train our crew in safe removal techniques and work as a team to accomplish goals.

To apply please send us a resume and/or cover letter.
