About the Role

Earthwise Salvage has been the Pacific Northwest's leader in architectural reclamation for over 30 years. We don't just sell used building materials; we divert history from landfills. We are currently looking for hardworking, reliable individuals to join our Seattle team.

This is a hands-on role in a fast-paced environment. If you enjoy physical work, have an eye for unique materials, and want to be part of a team that values sustainability, we want to hear from you.

Key Responsibilities

- **Physical Capability:** You must be able to lift up to 50 lbs unassisted and stay active on your feet throughout an 8-hour shift.
- **Reliability:** Weekend availability is required. We need people who show up on time and ready to work.
- **Problem-Solving:** You'll be handling everything from old growth lumber to vintage hardware. You should be comfortable using basic hand and power tools to process or move inventory.
- **Customer Service:** You will be assisting a diverse range of clients—from contractors to DIYers—to find the right materials for their projects.

Why Earthwise?

No two days are the same. You'll work with some of the most unique architectural pieces in the region alongside a team that actually cares about the environmental impact of the building industry.
